

SKY BOLLARD

Design: AART designers

In cooperation with AART designers we have developed **SKY**, new park and bollard luminaires in a contemporary design. The light source, LED, is placed at the bottom of the luminaire, and the indirect light, reflected by the arched roof, is soft and pleasant.

The bollard is light and elegant due to the slim and unbroken lines. Made of hot-dipped galvanised steel, the bollard is sturdy and will resist the daily wear and tear.
